PART XII. Appendixes

Appendix 1—Faculty Roster

Alphabetical list of all academic¹ staff members on appointment in the University of Nebraska College of Agriculture (or in positions closely related to the College) on July 1, 1924 or appointed after that date, but not later than June 30, 1974.

KEY: The information shown for each staff member, to the extent that it was available, is listed in the following order:

Name: Surname at time of termination, followed by first given name (or initial) and middle initial or name; followed by other surnames, if any, in chronological order (in parenthesis) while on appointment in the University. Nicknames are shown in quotation marks after the given names in cases where this helps to identify the person—example: Chase, Floyd J. “Cy” (1933-1952).

Years on staff: The years shown are for the first and last years on appointment in the University, with at least a portion of the time in the College of Agriculture. The fact that the person may have been on leave during a portion of this time or if he or she resigned and subsequently was reappointed to the staff, is not shown—the listing includes only the year of initial appointment and of final termination.

Name(s) of department(s) is (or are) listed alphabetically by the department(s) in which the position(s) was (or were) budgeted. Disciplines are used in determining departments for positions in the stations, or substations in the earlier years, when departmental appointments were ordinarily not granted. Persons paid by other than University funds, such as USDA, TVA and NE Crop Improvement Association, are listed with the department with which the person was principally associated (and usually in which a University appointment was granted). In case of joint appointments, in two departments or change of departments, all departments are listed. Courtesy appointments in other departments, for University paid staff members, are not included.

Staff members whose principal disciplines were outside of the College of Agriculture, but who participated significantly in some capacity in College programs are listed in their “home” departments.

Divisions: Next in the order of listings are the divisions in which the staff member held appointments, i.e., AES, CES, RI, and Intl Prgs which, to the extent they are applicable, are listed in that order. Every staff member was involved either in research - AES; extension - CES; classroom teaching - RI; and/or held a long-term assignment in the Colombian and/or

Turkish foreign assistance programs; or worked in the business side or administration of one or more of these programs.

For staff members listed as shown in the paragraph above, the appropriate college or division is shown. Example: 1) Abbott, Roscoe C. (1916-1964). Chemistry. A&S Col etc.; 2) Schreiner, Lyle R. (1958-). CYT, Love, Sciences and Technology. Libraries. City Campus, East Campus. BS UNL; MLS U OK.

Location(s): Next in order of listings are the University locations where the staff person conducted his/her work while on appointment. The major possible locations are:

East Campus; the “SE Ext Center” is added, if applicable.

City Campus.

The off-campus Stations/Substations/Centers² as follows:

Ft Rob (Crawford)

NE Sta (Concord)

NP Sta (North Platte)

NW Ag Lab (Alliance)

Pan H Sta (Mitchell, Scottsbluff)

SC Sta (Clay Center)

Val Substa (Valentine)

USMARC (Clay Center)

Turkey, Colombia and/or Afghanistan (UNO)

County extension offices: All 93 counties are included, usually listed as individual counties, but in a few cases in a combination of two or more counties as organized into units by the CES. County names, rather than names of towns, are used in giving the locations of the Extension offices. However, if the assignment was in the district but not associated with the county, the name of the town is given. The abbreviations “Co” and “Cos” are included at the end of the county list where the staff person was located. Counties are listed in alphabetical order. Counties with short names are spelled out in full. For longer county names we have used contractions, e.g., Flmr for Fillmore, Saun for Saunders, Cmg for Cuming, etc.

University degrees held: The earned degrees held by the staff member at the time of termination at the University of Nebraska, or at present, whichever date is applicable, and the name of the university where the degree was granted, are given in the following order: baccalaureate, professional doctorate, i.e., DVM or MD, master’s, and graduate doctorate, i.e., PhD or EdD (to the extent applicable). Names of degrees not falling into the above classification are listed as best they fit in the above order. Abbreviations of degrees are shown at the end of this Appendix.

²The schools of agriculture at Curtis are not included.

¹Terminology changes from time to time but at the time of this writing, *academic* positions are classified as “A” line positions. Not included in this listing are “B” line positions which are defined as managerial/professional and “C” line defined as office/support staff.

EXAMPLE (Fictitious):

BROWN, SADIE E. (Hinson, Gray). (1925-60). An Sci. AES, CES, RI, Intl Prg. East Campus; NP Sta; B-K-R, Flmr, Gage, Lncn Cos; Turkey. BS, MS, UNL; PhD KS U.

What the above tells the reader: Sadie E. Brown was on the staff of the College of Agriculture for at least some period between 1924 and 1974. She held the name Sadie E. Brown at the time of her termination at the University. The first surname under which she started work at the University was Hinson, which she later changed to Gray and lastly to Brown. Sadie received her first University appointment in 1925 and terminated in 1960. Whether the appointment was continuous is not shown. While at the University, and during at least a portion of that time she specialized in animal science. Also at some time she held appointments in each of the four divisions, i.e., AES, CES, RI and Intl Prgs — in what order or in what combination(s) is not shown. She was stationed, at least for a time, on the East Campus, at the North Platte Station, in three individual counties as shown, plus the B-K-R county district and in Turkey. Her formal education by the time she left the University in 1960 consisted of BS and MS degrees from the University of Nebraska, and the PhD degree from Kansas State University. Nothing is shown as to what happened to Sadie after she left the University.

Few staff would have as complicated a record while at the University as Sadie had, but it is possible.

Abbreviations for Academic Degrees

Following is a partial list of abbreviations for academic degrees listed in the roster, along with the full meaning of each. Not listed are those degrees rarely used.

BA—Bachelor of Arts
 BARR—Bachelor in Architecture
 BFA—Bachelor of Fine Arts
 BLS—Bachelor of Library Science
 B PED—Bachelor of Pedagogy
 BPH—Bachelor of Public Health
 BS—Bachelor of Science
 BSA—Bachelor of Science in Agriculture
 BS (JRNL)—Bachelor of Science in Journalism
 BSE—Bachelor of Science in Education
 BTH—Bachelor of Theology
 BVS—Bachelor of Veterinary Science
 DVM—Doctor of Veterinary Medicine
 EdD—Doctor of Education
 LLB—Bachelor of Laws
 MS—Master of Science
 MA—Master of Arts
 MF—Master of Forestry
 MALS—Master of Arts in Library Science
 MSLS—Master of Science in Library Science
 MBA—Master of Business Administration
 MCE—Master of Civil Engineering
 MD—Doctor of Medicine
 MEd—Master of Education
 MFA—Master of Fine Arts
 MPH—Master of Public Health
 MRE—Master of Religion
 MSE—Master of Science Education
 EdD—Doctor of Education
 PhD—Doctor of Philosophy
 DSC—Doctor of Science
 DVM—Doctor of Veterinary Medicine
 JD—Jurisprudence Doctor
 (NA)—Not available
 (ND)—No degree

¹The source of these data is the UN AES/ARD annual reports. Total income by years is not shown above since the amount in all cases was the same as total expenditures.

²The fiscal year of the UNL runs from July 1 of one year through June 30 of the succeeding one; thus fiscal 1985 covers the period of July 1, 1984 through June 30, 1985.

³Column 2 "Federal Formula Funds" initially consisted of Hatch funds only. However, other funds were gradually added by Congress so that by 1956, this column included Hatch, Adams, Purnell, Bankhead Jones, Research and Marketing, and Regional Research funds. Subsequently, through an act of Congress most of the funds were combined into Hatch. Thus beginning in 1957, column 2 included only the new Hatch funds and Regional Research funds. In fiscal 1964 the AES in the annual report shifted Regional Research funds from column 2 "Federal Formula Funds" to column 4 "Contracts, Grants/Gifts." Column 2 then consisted only of Hatch funds through fiscal 1982. In the annual report beginning in 1983, Regional Research funds were switched back to column 2, which since that time has also included McIntire-Stennis (forestry) and Animal Health funds.

⁴State funds are appropriate state tax revenues directly for the Experiment Station or that portion of the total University state tax appropriations allotted thereto by the Board of Regents.

⁵Contracts, Grants and Gifts are also known as "Restricted", "Restricted Current Funds" and "W Accounts". The sources included federal agencies (primarily USDA), state agencies, foundations, health organizations, industry, estates, and individuals. There were some such grants in the years 1943 to 1958. However those data are co-mingled with other University units and are not separately identifiable.

⁶Prior to being called Product Sales, these funds have also been known as "cash", "cash revolving", "cash auxiliary", "revolving funds", and "X accounts". They consist primarily of income generated by sales of crops, livestock and livestock products, other research by-products, and some services. Up to and including 1972, this column included the "Agency Revolving Fund", but at no time since then. (See Appendix 2, Table 2 below).

⁷Consists of salaries and wages and related fringe benefits; operating; supplies and related expenses; travel; and equipment. On occasion includes minor capital expenditure. However, major capital expenditures for land and buildings are not included.

⁸This table does not include direct expenditures by federal and other agencies.

¹Shown separately in the annual AES reports from 1973 through 1982. Entirely dropped from the reports beginning in 1983. Presently includes RLH US MARC, Foundation Seed, and Tractor Testing. Earlier also included Basic Seed Potato Program.

²For the first time, listed separately from "Product Sales" in the Annual AES Reports.

³For the first time omitted entirely from the financial summary of the Annual AES Reports. Information for the fiscal years 1983-1986 obtained from IANR Finance and Personnel office.

¹Consists of salaries and wages and related fringe benefits; operating; supplies and related expenses; travel; and equipment.

²Data for 1924 to 1942 from Cooperative Extension reports. Data for 1943 to 1972 from University financial reports. Data for 1973 to 1986 assimilated from University financial reports and from accounting summaries in the Office of the Comptroller and the Budget Office.

³Gifts, Grants and Contracts are also known as "Restricted", "Restricted Current Funds" and "W Accounts". The sources include federal agencies (primarily USDA) state agencies, foundations, health organizations, industry, estates and individuals. There were some such grants in the years 1943 to 1957. However, those data are co-mingled with all other University units and not separately identifiable.

⁴Sales and services, also known as "cash", "cash revolving", "revolving", "cash auxiliary" and "X accounts".

⁵State funds are legislative appropriated state tax revenues directly for Extension Service or that portion of the total University state tax appropriation allotted thereto by the Board of Regents.

⁶Federal funds presently consist of Smith-Lever funds. Over the years, funds also identified as Bankhead-Jones, Capper-Ketchum, Farm Labor, Bankhead-Flanagan, Federal Cooperative, Farm Housing, Flood Rehabilitation, and Extension Consolidated are reflected in this column.

⁷This table does not include direct expenditures by federal and other agencies.

⁸Clark-McNary Forestry tree distribution program expenditures included as sales and services from inception of program through 1972. Beginning with 1973 that operation has been treated as a separate agency activity and the expenditures are shown in Table 2 below.

Appendix 4. Abbreviations and Acronyms

The abbreviations and acronyms listed are those most commonly used in this book. Not included are well known abbreviations such as U.S. for United States; those which appear only in the lists of references; and names of states. The abbreviations for states are those used by the U.S. Post Office.

This appendix is divided into two sections. The first section lists abbreviations for administrative units of the University, primarily of the IANR, and the second lists other abbreviations and acronyms used in this book.

Appendix 5. Individual Recognition

The names of staff and alumni listed near the end of each chapter (where applicable) for individual recognition have been selected on the basis of qualifying in one or more of 22 categories which represent high levels of achievement.

A search has been made by the authors as well as by the administrative units to make the list as complete as possible. For the staff it is reasonably complete, but

for obvious reasons it would be impossible to have a complete listing for the alumni.

For UNL College of Agriculture staff who resigned, we have limited listing to honors received within five years after resignation, with the thought that the UNL College of Agriculture/IANR cannot take much credit for accomplishments after that lapse of time.

The 22 categories for basis of selection were:

1. Winner of Nobel prize in physiology and medicine, for outstanding contributions for the benefit of mankind, Sweden.
2. Winner of the Japan prize awarded by the Science and Technology Foundation of Japan.
3. Elected to membership in the National Academy of Sciences, Washington, D.C.
4. Elected to membership in the National Academy of Engineering, Washington, D.C.
5. Elected to membership in the National Academy of Arts and Sciences, Cambridge, MA.
6. Recipient of honorary doctorate degree(s) from the UN or other recognized university.
7. Recipient of U.S. Presidential Award.
8. Appointed Regents Professor, UNL.
9. Faculty members chosen by former students as having the greatest impact on their lives.
10. Recipient of UNL Distinguished Teaching Award.
11. Recipient of UN Outstanding Research and Creative Activity Award.
12. Recipient of UNL Distinguished Education Service Award.
13. Recipient of International Distinguished Service to Agriculture, awarded by the Honor Society of Agriculture—Gamma Sigma Delta.
14. USDA
 - Recipient of Distinguished Service Award (USDA's highest form of recognition)
 - Recipient of Superior Service Award (granted for achievement substantially beyond that ordinarily required for the position).
15. Appointed president or chancellor of a major university.
16. Appointed to U.S. Cabinet position, or equivalent.
17. Served as president or prime minister of a nation.
18. Elected governor of a state.
19. Elected or appointed member of the board of regents (trustees) of a major university.
20. Served as chief executive officer of a national corporation.
21. Elected president of a national agricultural professional or honorary society.
22. Served in the Nebraska Legislature.
